

BRIDGESTONE

**THE
BT-023,
YOU'LL
HAVE
TO
TRAVEL
A VERY,
VERY
LONG
WAY TO
BEAT
IT.**

You see we've designed the BT-023 with a clever new mix of compound technology, incorporating Silica Rich Ex and RC polymer, to give you far greater durability. In other words your tyres will last longer.

You'll also discover that it excels in wet weather.

This claim is no idle boast thanks also to MSB and 3LC*; together they give you the grip, stability and bump absorption that you demand, come rain or shine.

What's more, with the heavier touring bike in mind, there's the optional GT spec.

And there's no need to travel too far to get your hands on the impressive BT-023. Simply travel to: www.bridgestonebikersclub.co.uk for your nearest stockist.

**EXCELLENCE:
WE'RE AT
BRIDGESTONE
